IN THE UNITED STATES PATENT AND TRADEMARK OFFICE 2002

TECHNOLOGY CENTER 2800

In re Patent Application of:)
Kazuichiro ITONAGA et al.) Group Art Unit: 2823
Serial No. 09/662,004) Examiner: William M. Brewster
Filed: September 14, 2000)
For: METHOD OF FORMING INSULATING) Date: September 18, 2002
FILM AND METHOD OF)
FABRICATING SEMICONDUCTOR)
DEVICE)

CERTIFICATE OF MAILING

I hereby certify that this correspondence is being deposited with the United States Postal Service with sufficient postage as First Class Mail in an envelope addressed to: Commissioner for Patents, Washington, D.C. 20231, on September 18, 2002.

Jeannie Saxton

RESPONSE TO RESTRICTION/ELECTION REQUIREMENT

Commissioner for Patents
Washington, D.C. 20231

Sir:

In response to the Office Action dated August 27, 2002, Applicants provide the following species election.

Applicant hereby elects Species I as illustrated at least in Figures 1-10. Claims 1-20 are readable thereon.

It should be noted that Applicant believes that Figs. 11-13 should also be included in Species I. For instance, Fig. 11 is a sectional view showing the bias plasma oxidation and the silicidation of the structure of the gate electrodes (18a, 18b) taken alone on a section

perpendicular to the section shown in Fig. 6(a). In particular, Fig. 11 shows a sectional view in which the gate electrodes shown in Figs. 5-7 are taken from a different direction (See, page 42 of the specification). Figs. 12 and 13 are diagrams which explain the effectiveness of the bias plasma oxidation shown in Fig. 6(a). Therefore, Figs. 11-13 should be considered together with Figs. 1-10 as Species I.

Should the Examiner believe a conference would be of benefit in expediting the prosecution of the instant application, he is hereby invited to telephone counsel to arrange such a conference.

Respectfully submitted,

Donald R. Studebaker
